

Easy Start 1

What makes our Easy Start 1 special?

Based on the highest quality AGM lead-acid batteries

Custom Made 12V Safety Switching Technology

Solid State LED Voltage Indicator

Heavy-duty powder coated steel casing

4 Amp Microprocessor Controlled Multi-Stage Charger

Internal Surge and Spike Suppression

Fuse protection of charging circuit

Short circuit protected with unique "fuse-in-clamp"

Twin-flex non-tangle power cables with Anderson connector

Use of high-quality components throughout

Professional equipment, "Made in the EU"

Technical Specifications

Output power	12 Volt
Cold Cranking Current	350Amp
Unit weight	10Kg

Package content

Jumpstart unit including cables

Charger
